**TO WHOM IT MAY CONCERN**

Dear Sir/Madam,

This document certifies that **Mr. Manish Khadka** has successfully completed internship program in **Intersect info Developers Pvt. Ltd.** as a Full Stack Intern from Nov 21st, 2023 to March 21st, 2024.

During his tenure, Mr. Khadka contributed to both backend and frontend development. He worked on the backend using Java and Postman for API testing, while also gaining experience on the frontend using React.js and Next.js, and utilized MongoDB as the database with guidance from senior developers. He consistently demonstrated creativity, dedication, and strong work ethics. His contributions played a significant role in the successful and timely completion of various projects.

We at **Intersect Info Developers Pvt. Ltd.** sincerely appreciate his efforts and wish him continued success in all his future endeavors.

Rajat Budhathoki  
Software Engineer

Hiring Team

Hamro Patro

Sifal, Kathmandu

Subject: Application for Associate Software Engineer Position

Dear Hiring Team,

I am writing to express my interest in the Associate Software Engineer position at Hamro Patro. With a strong foundation in backend development using Java Spring Boot and Node.js, along with a passion for building scalable systems, I believe I am well-suited to contribute to your engineering team.

I have completed a 6-month internship as a Java Developer at Intersect Info Developers, where I built RESTful APIs and designed scalable microservices using Spring Boot. I also gained frontend experience during my internship at Softech Foundation, working with React.js and Ant Design. Beyond internships, I have completed 15+ freelance projects involving backend development, API integration, and full-stack deployment - including news portals, streaming apps, and custom CMS solutions.

My technical skills align well with your tech stack - I am proficient in Java, Node.js, MongoDB, PostgreSQL, Git, and have basic experience with Docker and Linux-based deployment. I'm also eager to grow my expertise in cloud platforms like AWS/GCP and modern CI/CD workflows.

Hamro Patro's commitment to impactful, user-focused software aligns perfectly with my own values. I am excited about the opportunity to learn, contribute, and grow as part of your dynamic and collaborative environment.
